

MODERNIZATION

OVERHEAD CRANE MODERNIZATION PROGRAM

PROGRAM DELIVERABLES

- SPECIALIZED DESIGN ANALYSIS FOR RE-RATING EQUIPMENT
- REPLACEMENT / RE-MANUFACTURING OF ELECTRICAL AND MECHANICAL COMPONENTS
- DETAILED ENGINEERING AND CUSTOMIZED CONTROLS COMPATIBLE WITH ORIGINAL CRANE DESIGN
- AUTOMATED CONTROLS TO IMPROVE SAFETY AND EFFICIENCY
- SCALES, ANTI-SWAY, LIGHTING AND EMPLOYEE WARNING SYSTEM
- ORIGINAL EQUIPMENT PARTS AND RE-ENGINEERED PARTS

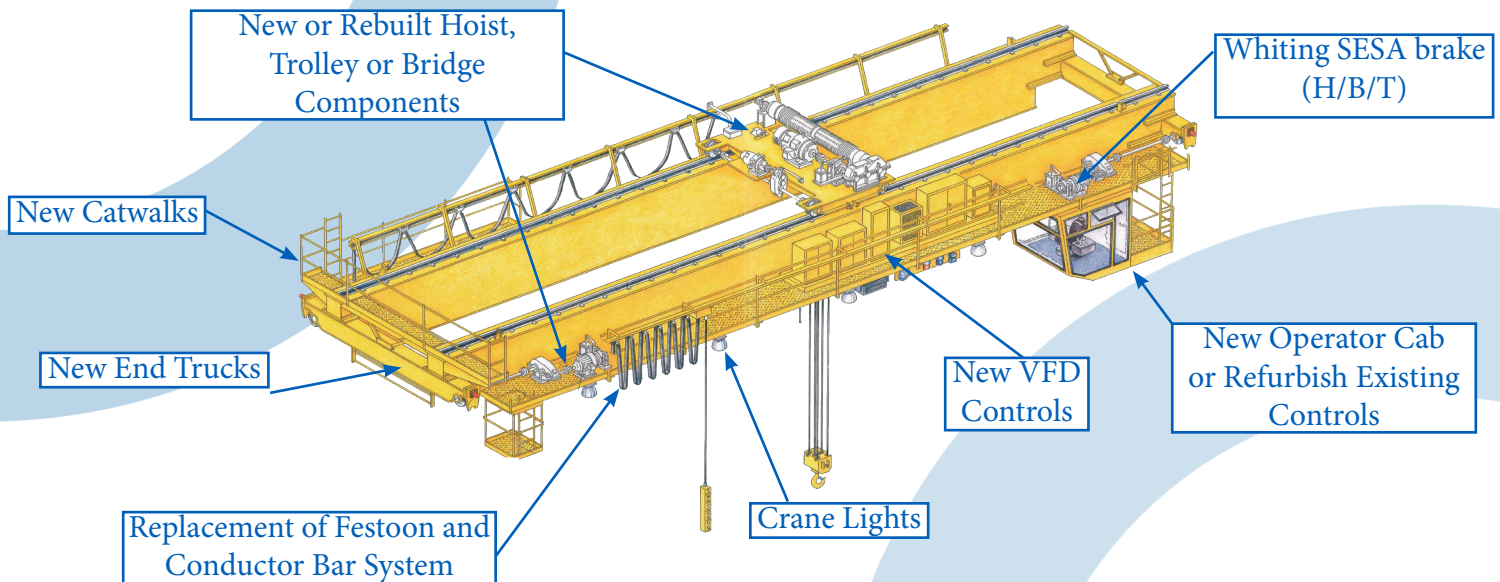

BECAUSE EFFICIENCY AND RELIABILITY MATTER...

Increased production requirements may demand more capacity, faster operating speeds, better controls, or automation. Reliability may have deteriorated, resulting in unscheduled shutdowns and increased production costs. Parts may be obsolete, resulting in high spare parts costs and long lead times. Inspections may show excessive wear or non-compliance with current safety standards or practices.

Whiting Services' modernization program takes all of these into account. You can extend the operational life of your equipment at minimal expense compared to replacement. Updating controls, drives, motors, or operator cabs with the latest technology increases the safety, reliability, and performance of your equipment while lowering overall operating costs. Our modernization solutions are designed to ensure compliance with OSHA, CMAA, & ANSI or other local regulations. This ensures that you are able to meet the increased demands for overhead material handling with reduced production downtime.

THE PROCESS

The process starts with a consultation between your team and Whiting Services' Technical Sales. Often deficiencies are discovered using our Crane Health Inspection Program (CHIP). Based on those recommendations, agreed upon actions will be engineered to bring the equipment up to modern safety and comfort standards.

THE RESULTS

Whiting's Modernization Program allows you to reliably extend the life of your equipment while reducing maintenance and operating expenses. You can work safer and more efficiently, which in turn reduces insurance premiums and legal costs. Contact Whiting Services today to learn how you can benefit from the Modernization Program in your operations.

Whiting Services, Inc - there for you when you need a lift.
